JACQUI DAVIES TO RECEIVE BFI 2016 VISION AWARD

The BFI has announced the recipients of its Vision Awards to provide invaluable support and funding to some of the UK's most promising producers.

Almost 500 companies applied for the 2016 Vision Awards, which are backed by a total commitment from the BFI of £2.2 million of National Lottery funding.

22 companies will receive the Vision Awards to provide invaluable support and funding to some of the UK's most promising producers, in order that they can build their career as they develop relationships and projects with some of the UK's most exciting and creative emerging filmmakers, contributing to the cultural and economic success of the UK's film industry.

Ben Roberts, director of the BFI's Film Fund, said: "We had an overwhelming response in this round, which means that whilst we weren't able to support all of the excellent and ambitious producers that we

spoke to, we are really excited by the range and potential of those we will be working with through this vital scheme over the next two years. Congratulations!"
